

UniqueTech Industrial Control

Driving Performance with Precision Instrumentation

UTIC is an engineering solutions provider firm for the process & manufacturing industry. A place where engineering excellence meets industry-leading solutions tailored to the unique needs of the process and manufacturing sector. With our deep understanding of industry challenges and unparalleled technical expertise, we are your trusted partner in achieving operational excellence.

Our Work Domains

- Calibration Services
- Hydraulic Testing Services
- Flow Instrumentation
- Temperature Instrumentation
- Pressure Instrumentation
- Level Instrumentation
- Process Calibrators
- Mechanical Valves

Calibration Services

In the world of precision & accuracy, calibration services play a pivotal role, ensuring that instruments and equipment deliver reliable and consistent results. From intricate laboratory devices to industrial machinery, calibration is the compass that guides measurement accuracy.

In-Lab Calibration services provide a controlled environment where we meticulously verify and adjust your instruments to meet the highest standards of accuracy. Equipped with state-of-the-art calibration standards and equipment, our certified technicians conduct thorough assessments to ensure that your instruments perform with specified tolerances.

Our Calibration Range

Associated Services

- VALIDATION
- INSPECTION
- DATA LOGGING
- TEMPERATURE MAPPING

For clients who require minimal disruption to their operations, our **Onsite Calibration** services offer a convenient solution. Our team of experienced technicians brings our calibration expertise directly to your facility, eliminating the need for instrument removal and minimizing downtime. Using portable calibration equipment and adhering to strict protocols, we conduct onsite calibrations with the same level of precision and accuracy as our in-lab services.

Introducing Precision Solutions For Industrial Instrumentation!

At UniqueTech, we pride ourselves on being more than just a supplier. We're your strategic partner in success with diverse range of solutions. We are specialized in providing top-notch solutions for temperature, pressure, level and flow measurement, as well as a wide range of valves and calibrators. As a trusted partner in industry, we specialize in delivering cutting-edge products and comprehensive services to enhance performance, efficiency and reliability of your operations.

Whether you're seeking the reliable measurement devices or robust control solutions, we have you covered. Our expert team is dedicated to delivering reliable and accurate instrumentation that meets the highest industry standards. Trust us to enhance the efficiency and safety of your process and manufacturing operations.
